Eternale™

*The Science
of
Conscious Beauty*

Eternale™

COMPREHENSIVE SKINCARE
www.EternaleBeauty.net

THE COMPLETE LINE OF *Eternale*™

*Achieve Maximum Results by
Combining these Synergistic Formulas*

ACTIVE FACE WASH™

Benefits: • Gentle Cleansing
• pH Balancing

The Active Face Wash™ is both a cleanser and toner in one, working to gently remove impurities and excess oil buildup while tightening pores. It's one of the few products on the market that is extremely effective on acne-prone skin and yet is gentle enough for mature and extra sensitive skin. Instead of using harsh detergent chemicals that dry the epidermis and disrupt its pH balance, this formula only utilizes natural-source surfactants to delicately deep clean pores.

COMPLETE EYE SERUM™

Benefits: • Anti-wrinkle
• Anti-puffiness
• Anti-dark circles

The Complete Eye Serum™ is a multi-faceted solution to the three major aging concerns around the eyes: wrinkles, dark circles, and puffiness. This formula includes active amino peptides that clinical studies have shown can dramatically influence the synthesis of collagen fibers to create visibly tighter skin and reduce lines around the eyes. Soothing botanical extracts have been included here to calm under-eye inflammation and reduce swelling, thereby reducing puffiness. Also added to this serum are undereye clarifying compounds that improve microcirculation in the skin to remove pigmented by-products which cause dark circles to form.

PEPTIDE-C SERUM™

Benefits: • Age Reversing Amino Peptides
• Active Vitamin C Therapy

The Peptid-C Serum™ is a powerful anti-aging solution for reversing the appearance of lines, wrinkles and sagging in face and neck skin. It contains active amino peptides as well as a high concentration of Stabilized Vitamin C that numerous clinical studies have shown can enhance the synthesis of collagen fibers which are the cornerstones of youthful skin. When combined with natural phytonutrient-rich botanical extracts this serum imparts both immediate tightening effects and long term anti-wrinkle/ anti-sagging benefits. Supplied in a highly penetrative serum gel, this formula absorbs quickly and disappears into the skin within seconds of application.

DAY COMPLEX™

Benefits: • Photo-protection
• Vitamin Therapy
• Moisturizing

The Day Complex™ is an anti-inflammatory, soothing blend of organic extracts, botanical oils and essential vitamins that provide complete antioxidant support throughout the day. This nutritive therapy provides a dramatic boost in moisture content immediately after application while its photo-protective minerals form a barrier over the skin to shield from harmful UV radiation. This is the perfect face finishing solution for instantly softening fine lines while leaving a youthful, matte finish.

DERMAGENTIX

*The Science of Conscious Beauty
Is Re-Creating Yourself Daily*

NIGHT COMPLEX™

Benefits: • Active Renewal
• Botanical Therapy
• Moisturizing

The Night Complex™ is a renewing formula that contains a powerful combination of alpha and beta hydroxy acids derived from natural, organic botanicals. These active compounds refine the skin over time to erase the appearance of age spots, freckles, etc., while evening out texture. Gradually, these active hydroxy compounds work to reveal a more youthful, flawless complexion and gently erase fine lines. Light botanical oils and antioxidant-rich extracts provide a strong defense against free radical damage and hydrate the skin throughout the night.
